AI startups · AI automation · Web software

Starting at \$45/hr

panicdigital.com

A selection from 100+ delivered projects

ABOUT

Smarter systems, faster growth.

panicdigital is the studio of **Vaskrsije Panić** — a software engineer building modern websites, AI automation and software for startups and growing businesses. From the first idea to launch, design → development → motion is handled end to end.

The work shown here is a selection — **100+ projects delivered** to date. One partner, one clear process, and work built to last.

- **AI startups**

From concept to MVP and beyond — product thinking with fast, focused execution.

- **AI automation**

Workflows and agents that remove busywork and scale your operations.

- **Web software**

Fast, modern, conversion-focused websites and web apps.
